Food can maintain and save life. It can destroy life as well. Proper food serves as medicine, improper food works as poison. A little care about the quality and quantity of food keeps us healthy and happy. If we go about eating all sorts of things we shall become sick.

We take pride in calling ourselves civilized. Being sensible means to know the difference between good and bad, right and wrong. It will not do to become slaves to our tongue or taste. Even cattle and beasts eat only what is best for their body.

We mosly eat processed food and refined sugar. We pay heavily for junk food, for chinese dishes or deep fried snacks. As a result we catch diseases. We have drifted away from Mother Nature. We laugh at rules of hygiene, healthy diet and the advice of our elders. This has given rise to diabetes.

We offer chocolates, cakes and icecreams too often to our children. We also attend parties or dine out every day. This way we invite obesity and diabetes.

- (a) What are the functions of food ?
- (b) What is meant by 'improper food' ?
- (c) What does the word civilized imply ?
- (d) Explain 'we have drifted away from Mother Nature'.
- (e) How does modern style and food habits affect us ?
- (f) (i) Which word in the passage means overweight ?
- (ii) What is the opposite of proper ?
